Masterflex® L/S®
MasterSense™ Drives
Reimagine an easier way to pump with the **MasterSense drive**. Intuitive programming and forward-looking features enable you to work smarter and pump easier than ever before. And, with the same great features as all Masterflex peristaltic pump drives including high precision, repeatable flow control, and reliable performance, you can have it all in one small footprint—even more bench space.

- Intuitive touch-screen interface
- Easy programming functionality
- Innovative forward-looking features
- Multiple connectivity options
- Versatile system components
Intuitive Touch-Screen Interface

- Quick and easy to set up and program
- 5” capacitive TFT/RGB touch screen with a clear, wide viewing angle
- Adjust parameters with a simple touch—even with gloves on
Easy & Accurate

- Operational modes include continuous run, volume dispense, and time dispense
- **Save and recall** up to 50 commonly used protocols, each with a unique name
- Batch control and interval/off time in volume and time modes
- Antidrip and speed ramping available in volume mode—ensure accuracy and minimize sample loss
Innovative Features

– Over-the-air firmware updates—allows you to take full advantage of future enhancements. Rest assured you will always have the latest technology on your MasterSense drive.

– Three-tier access to pump functionality—use this option to protect your process by controlling who can operate the pump and at what level. Offers two-factor security with user name and password required.

– Know when you hit your mark—graphical indicator lets you know when loaded tubing is optimally calibrated.
Connectivity Options

Get your preferred way to work with multiple ways to operate the drive—via touch screen, analog remote, or choose a connectivity option. When you need remote pump control and monitoring, our cloud-based MasterflexLive® technology would be the ideal choice. For a digital protocol to suit your automation needs, we offer EtherNet/IP™ or Profibus capability.

- **Choice of connectivity options**—MasterflexLive®, EtherNet/IP™, or Profibus

- **MasterflexLive**—our secure, cloud-enabled platform for remote monitoring and control of critical processes running 24/7 without the need for onsite personnel. Push notifications alert you to changes in operating conditions and error messages. Upgrade to premium for operational data storage in our Microsoft Azure secured cloud platform that complies to both FDA 21 CFR Part 11 and EU Annex 11.

MasterflexLive is proprietary technology—patent pending.
Powerful Performance

- Broad flow range, from 0.001 to 3400 mL/min, for use on the process floor and in the lab
- Internet connection via Wi-Fi or standard Ethernet (RJ45) jack on rear of drive
- Open-head sensor technology stops the drive motor when pump head is opened or connect it to a remote leak detector to indicate ruptured filters, blown gaskets, or leaky tube connections
- Brushless, maintenance-free motor provides ±0.1% speed control accuracy with 6000:1 turndown ratio
- Bidirectional flow and self-priming capabilities allow for smooth, seamless operation
Versatility—
A Pump Head for Every Application

Build the pump system for your specific needs with ten styles of Masterflex L/S pump head available. All are compatible with the MasterSense drive.
Versatility—Tubing for Every Application

Optimize your demanding peristaltic pump applications when you use Masterflex pump tubing—specifically designed and manufactured for Masterflex peristaltic pumps. Select Precision tubing or the thicker-walled High-Performance Precision tubing which improves pressure generation, suction lift, ability to pump viscous fluids, and tubing life. See all 20+ tubing formulations at Masterflex.com/tubing.

**Puri-Flex™**
- Heat sealable, weldable, and a great alternative to leading TPE’s
- Longer pump life and lower spallation when compared to silicone or many other TPE tubings
- USP Class VI, FDA, 3A, REACH, RoHS, ADCF

**Platinum-Cured Silicone**
- Low protein binding, fungus resistant, phthalate and latex-free
- Accommodates a wide temperature range
- USP Class V, EP, FDA, REACH, RoHS, ADCF

**Tygon® E-Food (B-44-4X)**
- Smooth inner surface unaffected by commercial sanitizers
- Nontoxic; will not affect taste or odor
- FDA, EU Food, NSF, 3A, REACH, RoHS, ADCF

**Viton®**
- Perfect for applications where FDA and chemical compatibility is needed
- Resists corrosives, solvents, and oils at elevated temperatures
- FDA, ADCF

### Specifications

- **Speed control accuracy (resolution):** ±0.1% (0.1 rpm at 600 rpm; 0.01 rpm at 100 rpm)
- **Display:** 5" capacitive TFT/RGB touch screen with in-plane switching (wide viewing angle); 800 x 480 pixels
- **External control - input:** 0 to 20 mA, 20 to 0 mA, 4 to 20 mA, 20 to 4 mA, 0 to 10 V, 10 to 0 V, 0 to 5 V, 5 to 0 V: Start/stop, Direction (CW/CCW), Prime via contact closure
- **External control - output:** 0 to 20 mA, 20 to 0 mA, 4 to 20 mA, 20 to 4 mA, 0 to 10 V, 10 to 0 V, 0 to 5 V, 5 to 0 V: Start/stop, Direction (CW/CCW), Prime via contact closure
- **Motor:** BLDC with encoder; continuous duty; reversible; 1⁄10 hp (75 W)
- **Open-head sensor:** Yes; extension cable included
- **Housing materials:** ABS plastic housing, painted aluminum chassis, painted aluminum bezel
- **Enclosure rating:** IP33
- **Agency approvals:** UL, cUL, CE
- **Warranty:** 2 years
- **Dimensions (L x W x H):** 101⁄4" x 75⁄8" x 81⁄2" (26 x 19.4 x 21.6 cm)
- **Shipping weight:** 11 lb (5 kg)
- **Power:** 90 to 260 VAC, 50/60 Hz

- **MK-07523-92 Foot switch**, momentary start/stop; 6-ft (1.8-m) cable
- **MK-07523-94 DB25 male connector.** Use to create your own cable
- **MK-07523-95 Cable assembly** for remote control; DB25 male connector and 25-ft (7.5-m) cable with stripped wire ends
- **MK-07523-97 Handheld remote controller;** route tubing through handle for dispensing into containers
- **MK-17050-01 NIST-traceable calibration** with data for peristaltic pump drive

Masterflex is a leading, global fluidics manufacturer of proprietary products—with certifications to help you stay compliant—for your complete fluidic path. Along with our wide range of products, from pumps and tubing to flowmeters and single-use components, we are your consultant and partner to help you optimize your full fluids workflow from research to process. And, when one of our standard offerings won’t fit your application, we can help you succeed with a custom-engineered OEM pump solution to meet your exact needs and budget.

Masterflex products are known for their accuracy, durability, and ease-of-use. They can be seen in facilities around the world particularly in the pharmaceutical, biopharmaceutical, food & beverage, and chemicals industries. Masterflex products can also be used in any bioprocess and R&D industries where fluidics is required.
