**ANTYLIA SCIENTIFIC QUALITY POLICY**

A cornerstone of Antylia Scientific is our strong commitment to customer satisfaction. This is met by our dedication to deliver quality products, services and manufacture top proprietary products without compromise. This is delivered through years of expertise, embedding a quality mindset and quality management system for one common goal—to earn customers’ trust every day. To build and keep this trust, Antylia Scientific pledges to provide the following:

- High-quality products and services
- Accurate and clear product information
- Reliable and helpful technical support
- Ease of transactions
- On-time delivery
- The highest level of customer service before, during, and after the sale
- Products that satisfy all applicable statutory and regulatory requirements
- Facilitate a continuous improvement culture that is enabled through a safe environment to express concerns and ideas
- Establish and maintain an effective quality management system (QMS) to support our operations and products.

Globally, Antylia Scientific is one team engaged to ensure our quality goals remain at the excellence customers deserve and have come to expect.

Jon Salkin  
CEO
COLE-PARMER (625 BUNKER) QUALITY SYSTEM

I. Management Responsibility / Document & Data Control

1. The Director of Compliance and Safety oversees our Quality programs.
2. The Director of Compliance and Safety reports to the CEO.
3. We have a group of key measurements called Key Business Metrics (KBM).
4. Senior management reviews the KBM’s monthly or quarterly, dependent of the business goals.
5. Where applicable the KBM’s are posted internally for all employees and visitors to monitor.
6. Departments control their own procedures, work instructions and records and are held accountable to the success of their respective KBM’s.

II. Contract Review

1. We review all orders to be sure we can meet customer requirements.
2. Terms and conditions can be found at https://www.coleparmer.com/terms-and-conditions
3. We will contact the customer to inform them if we cannot meet any requirements.
4. For orders that cannot ship at once, we assign a promise date.
5. If we cannot ship by this date, we will contact the customer with a new promise date if the customer opt in, and provides us with a email address.
6. We can change orders depending on the status of it in our system, but only do so upon direct request of the customer.

III. Purchasing

1. When taking on a new supplier, we verify they will be able to support the product.
2. We evaluate our top suppliers monthly regarding nonconforming actions in receipt of goods and it is reported within that departments KBM.
3. We issue purchase orders that include product description, unique product identifiers and in some cases specifications.

IV. Product ID & Traceability / Inspection & Test / Inspection & Test Status

1. We offer commercial off the shelf products, (COTS)
2. We identify items we sell with discrete identification numbers.
3. We determine which items require traceability & require that of the manufacturer.
4. We check all new items for identification, quantity and visible damage.
5. We inspect stock if we believe problems exist or could be repeated.
6. We identify and segregate items that are being inspected so they will not mistakenly be shipped.

V. Handling, Storage, Packaging, Preservation & Delivery

1. We have methods of handling items that prevent damage.
2. We have methods of storing items that prevent damage and deterioration.
3. We have methods of packaging items that prevent damage and deterioration.
4. We control perishable items to assure that they will not deteriorate.
5. We have a pest control plan managed by a licensed 3rd party; no pesticides are used in areas that contain products.
6. We maintain a “first in, first out” (FIFO) system of stock for those items requiring this management.
VI. Control of Customer Supplied Product / Servicing - InnoCal

1. We receive customer-supplied products for repair or calibration.
2. We have procedures to protect as well as service these customer-supplied products.
3. Customer supplied products are segregated from general inventory to prevent mix-ups.

VII. Control of Inspection, Measuring & Test Equipment - InnoCal

3. The ISO only applies to the InnoCal operations not to other operations within 625 Bunker.

VIII. Control of Nonconforming Product / Corrective & Preventive Action

1. Incoming nonconforming items are segregated within our facility referred to as the Problem Receipts Area.
2. We determine the disposition of items in the Problem Receipts Area.
3. A Product CAR (corrective action response) can be initiated for checking items in stock that might be nonconforming.
4. Anyone at Cole-Parmer may initiate a Product CAR.
5. Inventory Control and the QA Department checks product CARS.
6. QA and Purchasing determine the disposition of nonconforming items from stock.
7. The Director of Compliance and Safety escalate serious non conformances and decides whether a CAR should be sent to a Supplier.
8. QA can flag future incoming items for QA inspection to assure conformance.
9. QA can flag incoming items for QA inspection to verify supplier corrective action.

IX. Control of Quality Records / Training / Continuous Improvement

1. We have a company retention policy for our records.
2. We have a standardized process for hiring and training new associates.
3. Our hiring process includes determination of training needs for each position.
4. Each department maintains training records for department associates.

X. Design Control / Process Control / Statistical Techniques

1. 625 Bunker location is not a manufacturer. We do have manufacturing entities around the world.
2. We have a procedure in place to alert customers who have requested notification of raw material or production changes, referred to a Critical Product Program /Change Notification.
3. Each department determines which statistical techniques to employ if applicable.
CUSTOMER SATISFACTION MEASUREMENT

We measure customer satisfaction and refer to this measurement as our Customer Allegiance Score (CAS).

This program consists of the following:

- Our Allegiance Response Team (ART) is made up of members of key departments and they meet to:
  - Review data and responses
  - React to customer feedback and complaints
  - Recommends action to reduce impact of issues

EQUAL OPPORTUNITY, DIVERSITY AND INCLUSION,

Antylia is an equal opportunity and affirmative action employer. We have been and will continue to be committed to recruiting, hiring, promoting and training the most qualified individuals for positions at all levels within the organization. Only through obtaining, utilizing and enhancing the abilities of superior candidates at all levels will the Company be able to achieve its goals. We will, therefore, maintain our commitment to and support of, equal employment opportunity for all individuals without regard to race, religion, color, national or ethnic origin, gender, age, sexual orientation, gender identity, disability or veteran status. Our commitment to equal employment opportunity extends to any other protected classes which may exist under applicable law.

FORCED LABOR

Antylia Scientific will not tolerate the use of child or forced labor in any of its global operations and facilities. We expect the suppliers and contractors with whom we do business to uphold the same standards. Should a pattern of violation of these Principles become known to Antylia Scientific and not be corrected, we shall discontinue the business relationship.

ENVIRONMENTAL, SAFETY & HEALTH POLICY

It is the policy of Antylia Scientific to comply with all environmental, safety, and health laws and regulations applicable to its operations. The Company will conduct its business responsibly and in a manner intended to satisfy its environmental obligations and to protect the health and safety of its employees and neighbors.

GLOBAL TRADE COMPLIANCE POLICY

It is the policy of Antylia Scientific to comply with all export and import control laws and regulations pertaining to its operations. Cole-Parmer will conduct all its export-related and import-related activities, including procurement, sales and shipments of products, and transfers of technology and services, in a manner that satisfies its obligations under export and import laws and the regulations of the United States and other countries.
POLITICAL CONTRIBUTIONS

Political contributions to U.S. federal election campaigns made directly or indirectly from Company funds are prohibited. The legality of political contributions to state, local or foreign campaigns or causes must be determined on a jurisdiction-by-jurisdiction basis and, therefore, must be approved in advance by a member of the Company’s Human Resources Department. Political contributions include any donation, gift, or loan of Company funds, assets, or property, directly or indirectly, to or for the benefit of any political party, committee, or candidate, and any use of Company funds, assets, or property, directly or indirectly to oppose or support any Government or subdivision thereof, or to oppose or to support any candidate or office-holder. This includes: (a) donations, gifts, or loans of funds, assets or property which are made by employees or third persons, such as agents, or consultants, who are reimbursed in any way by the Company; (b) the uncompensated use of Company services, facilities, or property; and (c) loans, loan guarantees or other extensions of credit.

HONEST AND ETHICAL CONDUCT AND FAIR DEALING:

All Antyla Scientific employees endeavor to deal honestly, ethically and fairly with the Company’s suppliers, customers, competitors and employees. Statements regarding the Company’s products and services or otherwise must not be untrue, misleading, deceptive or fraudulent. Employees must not take unfair advantage of anyone through manipulation, concealment, abuse of privileged information, misrepresentation of material facts or any other unfair-dealing practice.

ANTI-BRIBERY

Antyla Scientific is committed to conducting its activities free from the unfair influence of bribery and corruption. No bribe, or other illegal direct or indirect gift or payment must ever take place. Employees must observe the highest ethical standards and comply with all applicable laws and regulations when conducting business. Cole-Parmer will not resort to bribery or corruption ‘in order’ to obtain or retain business or other improper advantage in the conduct of international business,’ as outlined in the Organization for Economic Cooperation and Development (OECD) Convention on Combating Bribery of Foreign Public Officials in International Business Transactions and in the Foreign Corrupt Practices Act (FCPA), a USA regulation applicable worldwide.

CONFLICTS OF INTEREST

All employees are required to avoid any relationship with other individuals or organizations that might impair, or even appear to impair, the proper performance of their Company-related responsibilities. Employees must avoid any situation that might affect their independence of judgment with respect to any business dealings between the Company and any other organization or individual. Any employee who believes that he or she may have such a conflict, whether actual or potential, must report all pertinent details to his or her supervisor or a member of the Executive Staff. Any director or officer, who believes that he or she may have a conflict of interest, whether actual or potential, must report all pertinent details to the Chief Executive Officer.
