Bill To: _____ _____ _____ _____	Date: _____ Contact Person: Technical Contact Name: _____ Phone: _____ Email: _____
Ship To: _____ _____ _____ _____	} This information will appear on the Calibration Report

Payment Options (Please select one if applicable)

- ☐ Purchase Order No. _____
- ☐ Credit Card (Do not send credit card number on this sheet, customer service will call for card info)

Please check the service that applies:

	Standard NIST-traceable calibration: All measurements performed and reported by InnoCal are compliant to ISO17025 and ANSI Z540-1. InnoCal is accredited to ISO17025 by A2LA (http://www.a2la.org/scopepdf/1746-01.pdf).
	Accredited NIST-traceable calibration: ISO17025-compliant measurements AND accreditation body's logo printed on certificate. This service adds an additional fee per calibration and requires service item number 17100-03 added to the order.
	Repair only: Product has a known performance issue. InnoCal will repair product and return in good working order based on manufacturer's initial specifications.
	Repair and Calibration: Product has a known performance issue. InnoCal will repair item to good working order based on manufacturer's initial specifications and perform NIST-traceable calibration before return of product. The standard calibration price will be added to the order.

All Tolerance conditions are based on test results falling within specified limits with no reduction by the uncertainty of the measurement.

Manufacturer	Model #	Serial #	Customer Selected Points (Leave blank if using default or manufacturer's points)	Calibration Interval

Please enter below any special quality requirements or any known issues with the product that may require repair. Unless specified, InnoCal uses procedures developed internally in accordance with industry-accepted, military, government and manufacturer procedures.

Ship To:
INNOCAL

Vernon Hills, IL 60061

INNOCAL relies on the accuracy of information provided by you to protect its employees from injury by exposure to toxic, hazardous, biological, or otherwise hazardous materials.

Federal law prohibits the transfer of equipment or products contaminated with radiological, biological, or chemical waste residue.

Please indicate how this product(s) is used and describe all materials (hazardous and non-hazardous) it has come in contact with:

Please Check all the boxes that apply:

	The products(s) was never exposed to any radiological, biological, or chemical agents and is safe to handle.
	One or more of the product(s) was/were used in conjunction or exposed to radiological, biological, or chemical agents and has been decontaminated, rendering it safe for handling.

We are going green!

InnoCal will no longer provide calibration services for mercury products.

The closing of this program is a result of the US Environmental Protection Agency, OSHA, and ongoing industry efforts to phase out measuring equipment containing mercury in the workplace.

Please do not send any items containing mercury to us.
 Contact our Customer Service team if you have any questions: **866-466-6225**.

Authorization

By accepting authorization to return the products listed on the return authorization, the undersigned assumes all responsibility and liability for radiological, biological, and chemical decontamination. INNOCAL reserves the right to refuse delivery of products without necessary documentation or where we determine they have not been properly decontaminated. INNOCAL reserves the right to bill the customer for any and all costs associated with the decontamination and/or disposal of products we determine were not properly decontaminated or received broken. In the event a product has exposed to radiological Safety Office release is required. By signing below the customer also certifies that the shipment complies with DOT 49 CFR Hazardous Materials Regulations
